STURGEON BAY, WIS., FEBRUARY 7, 1878.

**Local Slivers**

—A thaw is threatening.  
 —St. Valentine's Day next Thursday.  
 —The upper mill dock wears a lively and animated appearance.  
 —The Green Bay mail now arrives before dark nearly every evening.  
 —Don't forget to read the new advertisements in this week's issue.  
 —Circuit Court convenes at this place a week from next Tuesday, the 19th.  
 —Sheriff Houle is busy summoning the jury for the approaching term of the Circuit Court.  
 —A gang of men and teams are engaged in extending Mr. Harris' dock into deep water, on the west shore of the bay.  
 —The old tin shop on Spruce-street, used as a saloon by Joe Stroh, has been raised about two feet and is to be moved back several feet.  
 —A heavy gale from the southwest prevailed here Tuesday night. It must have used up the ice on Green Bay pretty effectually.  
 —It makes a fellow's mouth water to see the number of county correspondents with which the *Kewaunee Enterprise* is favored weekly.  
 —Green Bay has finally succumbed to the cold weather, and gone into winter quarters. The cold snap of Sunday night, the 27th ult., did the business.  
 —Our readers will find a readable letter on the second page of this issue. It is written by one of Door county's former favorite citizens, Mr. S. C. Senn.  
 —Mr. Harris informs us that real estate business is lively over at Bay View. On Monday he disposed of three lots, and the demand is for more and more.

the inevitable result.  
 —There is a general impression that our village school girls carry their books home at night in order to study the lessons of the following day, but a reporter on this paper affirms that they do so for the purpose of sliding down hill on the atlases and slates.  
 —Business is unusually quiet at Fish Creek this winter, owing in a great measure to the absence of snow and ice. Winter fishing, which has been carried on for several seasons, has been brought to a stand-still altogether this year.  
 —The smoothness of the ice, and the absence of any considerable quantity of snow on our bay above the upper mill, affords an unexcelled opportunity for a horse trot. Why don't the owners of some of our fast "stock" get up some little excitement in this line?  
 —In the intervals of other labor, Mr. Alex. Laurie is preparing material for a yacht thirty feet long, to be constructed at his leisure. It will be sloop-rigged, and the model gives promise of a craft that will show its heels to anything of its class in Green Bay waters.  
 —About 12 o'clock Saturday night last, Mr. W. F. Post discovered an ash barrel blazing in the rear of Lawrence & Co.'s store. Fortunately he was able to extinguish the fire before it communicated to the neighboring buildings, and thus a great calamity was happily averted.  
 —As a sample of the difficulties with which our lumbermen are contending this season, we may state that Spear Bros. have transported snow, scraped from the surface of the Little Lake, to their logging road, and afterward hauled water to be sprinkled along the track—a tedious and expensive process.  
 —The Messrs. Henderson, at Big Sister Bay, have one of the best arranged and handsomest stores on the peninsula. The stock is complete and em-

en having during the past  
nake any visible impression  
go.

ENY, for many years in the  
oodrich Transp. Co., has re-  
service, having saved up a  
ing his 20 years or more of  
ent labor. Capt. Ed. Dorsey  
the command of the steam-

tug A. W. Lawrence is be-  
t a lively rate. The hull has  
outside planking commene

can attend to in their wagon and blacksmith  
shops. They have half dozen orders on file  
for new farm wagons. A large amount of  
repairing also finds its way to this establish-  
ment. The Messrs. Wolf are clever and  
upright men, hence their success.

CONWAY & SON express themselves as  
well satisfied with the future business pros-  
pects of this place. This insures their per-  
fection here, we are pleased to re-  
the Messrs. Conway are thorough  
and reliable business men, and the town  
that secures them may be classed among the  
fortunate ones

WORK on Mr. Harris' pier is progressing  
satisfactorily. The cribs built this year  
have been filled with stone, and the string-  
ers are now being put on. This done the  
planks will be laid. There are only about  
eight feet of water at the outer end of the  
wharf at present; but the owner intends ad-  
ding an oblong structure 60x100 feet, which  
will give all the wharfage required to ac-  
commodate the present business. The latter  
addition will be built of piles. When this  
is completed there will be eleven feet of wa-  
ter at the extreme end.

~~THE repairs on the ferry scow Ark are~~  
progressing as fast as can be expected when  
the amount and extent of the work is taken  
into account. Among the substantial and  
permanent improvements being made are  
new and larger shafts; ditto wheels and  
wheel-houses, and larger fire-box and boiler  
room. These various changes are made for  
the purpose of enabling the vessel to make  
better time, and also furnishing the requisite  
power for running the craft in any kind of  
weather. The outlay on these various im-  
provements and repairs will probably ex-  
ceed \$400.

COMPROMISED.—The suit of Scofield &  
Co. against the town of Sturgeon Bay for  
unequal assessment of taxes, commenced in  
'79, which has been tried at two sessions of  
the circuit court and was last term referred  
to Judge Hamilton, has been compromised  
and amicably adjusted by S. & Co. agree-  
ing to pay the full amount of the tax, viz:  
\$475 13—\$300 down and the balance on or  
about the 1st of June. Each side pays its

Forever float that standard sheet,  
Where breathes the foe but falls before us,  
With Freedom's soil beneath our feet,  
And Freedom's banner streaming o'er us!

STURGEON BAY, WIS., MAY 26, 1881.

**Bay View Items.**

Work on Capt. Anderson's proposed buildings has commenced.

The interior of the Bay View House has been renovated throughout.

It took about one ton of iron for Harris' pier, besides a large quantity of spikes used in planking.

The schooners Sea Bird and E. M. Stanton loaded with cedar at Harris's and Schjoth's piers the past week.

Business about the new pier has been pretty brisk since its completion. It has had a tendency to infuse new life into the place.

Henry Hembel, one of the substantial and progressive farmers of Nasewaupce, has ordered a \$100 buggy at Geo. Noble's shop.

W. W. Follett, of Peshtigo, has purchased a lot from Mr. Harris on which he intends to build a tin shop and residence. He will remove his family to this village in about three weeks.

Our Quaker friends have commenced the erection of a church edifice just north of Mr. Harris's residence. The building is up and being inclosed, and will probably be ready for use during the summer.

Cocagne has about finished shipping evergreens for this season. Owing to the backwardness of the season and uncertainty of the boats has caused much annoyance and delay in shipping as promptly as usual.

A number of the proscribed "bums" who have been hanging out at this place off and on during the past month or two, have gone to some more congenial localities. Since the promulgation of the saloon-keeper's mani-

Friday and Saturday, September 23d and 24th, 1881. Membership fee, \$1 per year, with privilege of free entry for self and family and articles for exhibition at the annual fair of the society.

from a western prospecting tour, and it is reported that he will remove from here next spring. Sorry to hear it.

Rev. H. Gersmann is located at Louisville, Ky. Letters addressed 712 Twentieth street will reach him. He reports the weather excessively warm down there, mercury going up to 104° some days.

Joe Hebert, the old-time head sawyer and now engineer on the Ark, has bought from Mr. Cordier the two acres and homestead on the shore next to Mrs. Tuck's place, and will soon become a citizen of Bay View.

L. J. Conway & Son have completed arrangements to buy wheat and other grain at Bay View the coming fall. They will pay top prices in cash. A grain warehouse 40x50 will be built at the shore end of Mr. Harris's dock and a tramway laid along the dock to run the grain by car to the outer end of the dock for loading vessels.

The enterprising merchant, E. N. Anderson, has commenced building his business block on the corner of Maple avenue and Union street. The main building will be 24x32, two stories high, an addition 14x22, one and a half stories high, and a back building 14x16. The buildings will be veneered with brick and will be a handsome addition to the village.

The parties who have been talking of building a grist mill at Bay View should hurry up their cakes and secure before it is too late a most eligible site on the main business street of the village adjoining the shore of the bay, which can be utilized for a dock and for water supply from the bay. This property can be got cheap and there is money in the enterprise.

The ladies (God bless 'em!) and citizens of Bay View have done a good work, resulting from their part in the late celebration of the glorious Fourth of July. Just previous to the Fourth, a committee, consisting of E. N. Anderson, John Johnson and Henry Heilmann was named to collect subscriptions for

John Kniskin lost 2,500 pieces, and had a shanty burned.

A. I. Harris lost a shanty and all his ties, posts, and bark.

Charles Nebel lost a shanty.

F. Wholtmann lost a shanty and a quantity of ties, etc.

Joseph Anderson lost a shanty.

Samuel Oleson lost 45 cords of bark, and saved his dwelling house only after a hard fight with the surrounding flames.

Thomas Farrell's tramway was destroyed, but he is said to have lost but \$100.

Thomas near losing their houses.

While the actual money value of the property burned was not great, the losses have generally fallen upon persons who are not in condition to spare any of their substance.

The relief afforded by the rain of the 24th ult. proved to be but temporary. The fire had been checked but was not extinguished, for later in the week it began again and at last advices was spreading through the timber. Were it not fortunately the case that most of the stuff cut had been removed for shipment before the fire broke out the damage done would have reached the magnitude of a calamity. Even as it is, unless heavy rains come soon to flood the country there is danger that the flames will extend to sections where they will inflict more injury upon the people than has yet resulted from their ravages.

**HALL'S VEGETABLE SICILIAN HAIR RENEWER** is a scientific combination of some of the most powerful restorative agents in the vegetable kingdom. It restores gray hair to its original color. It makes the scalp white and clean. It cures dandruff and humors, and falling-out of the hair. It furnishes the nutritive principal by which the hair is nourished and supported. It makes the hair moist, soft, and glossy, and is unsurpassed as a hair-dressing. It is the most economical preparation ever offered to the public, as its effects remain a long time, making only an occasional application necessary. It is recommended and used by eminent medical men, and officially endorsed by the State Agents of Massachusetts.

the Lake Michigan, following the north-  
ern of the two ditches. On it came with  
a steady movement, white, dense, defined.  
It seemed to lift the whole body of smoke  
up about six feet into the air, and roll-  
ing under it spread in every direction,  
till, in half an hour from its first appear-  
ance, the whole marsh was white as snow.  
Berries froze within three feet of the  
fires. An eye witness, who was tending  
the fires, describes the scene as very  
strange and startling.

#### Bay View.

A girl baby at Louis Wulf's last Fri-  
day.

Fuller continues to serve the public  
well at his restaurant.

Mrs. Geo. Rodgers has returned home  
from her West shore visit.

Mrs. Fred Birge, who has been so dan-  
gerously ill for some time past, is on the  
improve.

Repairs are being made on Harris'  
dock, considerably improving that  
structure.

W. F. Bartz now occupies his new  
house, and is as contented as a lamb in  
new clover.

Farmers claim that potatoes are rot-  
ting fast, and already predict a shortage  
in that crop.

A boy at John Scott's (Circle Ridge)  
last Monday; and the happy daddy  
smileth blandly.

A new steam thresher arrived on the  
Corona yesterday, and has been taken to  
Brussels for trial. It's a beauty.

Nels Thostenson returned home from  
Milwaukee Wednesday, and states that  
he has secured the desired relief for his  
eyes.

Remember the Donlan popular draw-  
ing at the Bay View House to-morrow  
evening—a sewing machine and a dance,  
all for 50 cents.

More fishermen have located here dur-  
ing the past week, and several hundred  
more are reported to be on the way. We  
have room for them.

yet.

Last Saturday night's frost put a stay  
on the growth of late potatoes, and gar-  
den stuff.

The package of EXPOSITORS due here  
last Saturday, has failed to reach this  
place yet.

Mr. Patrick McDermott wears a broad  
smile since the arrival of that young  
lady boarder at his place.

John Hendricks is at work putting up  
a dwelling house on his place, that he  
recently purchased of Jerry Madden.

Mr. J. C. Langemak, Miss Mary Witt,  
and Miss Anna Eliza Hayes, are attend-  
ing the teachers' institute at Sturgeon  
Bay this week.

1883 September 14  
of  
der  
drive  
style hereafter.

Fred. Buldhant, who rented Joseph  
Robert's blacksmith shop this summer,  
has purchased a lot of John Fetzer, and  
commenced the erection of a shop of his  
own on the lot.

The trustees of the Catholic church  
have sold the organ, that has been used  
in the church for the past year, to the  
Catholic school in Ahnapee, and bought  
a larger one for the church.

A gang of men has been at work the  
past week on the telephone line between  
here and Ahnapee. They are cutting  
down some of the old poles of Swaty &  
Co.'s line and putting both wires on the  
one set of poles.

Self-binders are fast taking the place  
of reapers. Messrs. R. Perry, Julius  
Barnhart, John Keogh and Louis Machia  
each own one. And there are several  
other farmers who have their places in  
condition so as to use a self-binder to  
good advantage.

Mr. John Stoneman and the Machia  
brothers have purchased a new thresh-  
ing machine. They do not intend to  
thresh any except their own jobs, as  
each of them have a large quantity of  
grain. They thought it cheaper to buy  
a machine than to pay out so much for

passed away last night. She leaves a husband and one child to mourn her loss.

Hagen's quarry has made its last shipment for the season and it is now being cleaned out preparatory to shutting down. The boarding house was closed on Saturday of last week.

Warren Whitaker was scooped in by our marshal on Saturday night, the charge being "drunk and disorderly." He was taken before Justice Masse on Monday, who assessed him \$4.95 which was paid.

Luly Schjoth was hurt pretty badly on Saturday while sawing bands at the shingle mill. One of the sticks got caught in the saw and was thrown back violently, striking him in the face and causing some rather bad looking bruises.

Chas. I. Martin has purchased the Harris dock property and warehouse, and next season he will put up a building to take the place of the refrigerator and cold storage warehouse that was destroyed by fire last summer. Repairs will also be made to the dock so as to put it in first class shape for business. This will be a big addition to the business interests of this side of the bay.

The property holders of this ward ought to begin to wake up to the fact that if they want this part of the city to prosper they must be a little reasonable in the prices asked for their property. At present a most unreasonable price is asked for everything in the shape of real estate and in a few cases it is impossible to get a price upon lots. By persisting in this course persons wanting to invest money here will be driven across the bay or up to Circle Ridge. There is no use in trying to make a fortune out of a single lot as some of our residents are evidently trying to do.

E. W. Brewster went to Chicago last week leaving his business here in rather bad shape, there being between eight and nine hundred dollars due the men who had been working in his quarry during the season. Joannes Bros., of Green Bay, seized

is prudent to do so, but not later, under any circumstance, than November 25th.

By order of the Lighthouse Board.

Notice is hereby given that the orders of October 27th, 1891, addressed to the keepers of light vessels Nos. 55, 56 and 57, on Simon's and Gray's reefs and White shoal, Lake Michigan, have been amended to read as follows: "You will remain on your station, if possible, until December 1st instead of November 25th."

By order of the Lighthouse Board.

#### BRIEF NOTES.

The Panover Wedn 1891 Nov 12

The schooner Lucy Graham was in port during the week with a cargo of apples.

The David Macy loaded lumber at the Island mill during the fore part of the week.

The tugs Goldsmith and Nelson were both laid off temporarily on Monday for the purpose of cleaning boiler.

The tug A. Mosher has been laid up for the winter this week, Capt. Walker being in command of the Goldsmith.

The Leathem D. Smith towed one of Green's dredges to Chicago from Menominee during the latter part of last week.

The steamer Liberty was placed in Leathem & Smith's dry dock today for the purpose of having her stern bearings examined.

The little schooner Willard Smith got tangled up in the bridge this noon while trying to beat through. No serious damage resulted.

The Evenson was laid up on Tuesday while repairs were made to her rudder which was broken recently while going into Waukegan.

The schooner L. C. Butts, which went ashore on Washington Island recently, has been abandoned to the underwriters, the heavy gales of last week having about broken her up.

The barge Mary Mills ran ashore on Green Island a week ago last Wednesday,

the  
e of  
d a  
the  
too

kildson & Shaw distributed among the residents of this city and vicinity the sum of \$20,098, nearly all of this sum being paid out by them for wages during that time. The sum of \$8,872 was paid out for shingle mill stock during the year, the greater part of this going to the farmers of this vicinity for timber which would be worthless except for the shingle mill. Laborers in the shingle department received during the year for wages the sum of \$8,041.

A number of workman have been engaged for some time in getting the Harris dock and warehouse property which was purchased by Chas. I. Martin some time ago ready for use next spring. The interior of the warehouse has been entirely torn out and will be remodeled. The dock is to be extended out into the bay seventy-five feet further, and the warehouse will be moved out nearly this far and placed on a solid foundation. The portion of the dock next to the shore is being torn up it being the intention to fill in the whole property with refuse from the shingle mill, thus making the approach to the dock permanent. When the contemplated improvements have been finished the property will be a valuable one.

#### IN MEMORIAM.

At a joint meeting of Henry S. Schuyler Post No. 226, G. A. R., and Woman's Relief Corps, held at their hall in the city of Sturgeon Bay, January 23rd, 1892, the following resolutions were by a rising vote unanimously adopted.

*Resolved,* That as comrades, neighbors and friends we do hereby extend to comrade Birmingham, his wife and children the right hand of fraternity and friendship as a support in this, their saddest hour of grief. The hand hereby extended grasps and conveys our most tender and heart felt sympathies, and so far as possible we enter into your sorrow occasioned by the loss of your son and brother, Elmer. We recognize the fact that a link in nature's

ing Monday.

Capt. John Saveland, of Milwaukee arrived here on Tuesday, for the purpose of looking after the wood business in that part of the country.

Mrs. E. M. Scott returned on Friday noon of last week from Chicago, where she has been on a business trip. 1892 Jan 28

Porter Hendricks left here on Friday for a short trip to Chicago and other points for the purpose of restoring his health which has not been very good for some time past.

Capt. John Campbell was in the city on Wednesday, being on the way to his home in Salona. He has been working in the lumber woods near Wausaukee during the winter.

C. V. Mashek, of Whitefish Bay, was in the city on Wednesday. Mr. Mashek reports that the absence of snow on the roads is seriously retarding work in the woods at that place.

H. Bourgeois, who accidentally cut himself quite severely with a pocket knife a couple of weeks ago is getting along all right now, although it was thought at first that his injuries might prove serious.

Mr. and Mrs. C. P. Cheeseman departed for Rhinelander on Wednesday morning, telegram having been received on Tuesday evening announcing the dangerous illness of Mrs. Cheeseman's mother, Mrs. R. V. Chatterton, who resides at Rhinelander.

Chas. Nelson, Wm. Nelson, M. G. Moller, Frank Chapek, and M. Kwapil, members of the Ahnapee camp of Sons of Veterans, came over from there on Sunday to attend the funeral of Elmer Birmingham, returning home on the following day.

Mr. and Mrs. John Leathem were called to Rhinelander on Friday of last week by a telegram announcing the death of Mr.

live to earnest ors. It Mr. and several is occa-

Trade is reported dull, owing to the bad condition of the roads.

E. S. Fuller has gone to Sheboygan where he will henceforth make his home with his son Louis.

Chas. Bernard continues to travel for the May Bros., a large nursery firm, and is doing a fine business.

The dance at Goettelmann's was the largest ever held on this side, the hall being filled to its fullest capacity.

The Fuller homestead consisting of the house and four acres of ground has been purchased by Mrs. Geo. Walker. Consideration \$750.

John Roth offers free the necessary site for a flouring mill. The location is a fine one, there being excellent water facilities for shipping purposes.

Chas. I. Martin will extend his dock one hundred feet into the bay during the next few weeks. The old part of the dock will be put in repair and otherwise strengthened with new planking and stringers and put in good condition for the opening of navigation. John Ryan will drive the necessary piles for the extension.

Willie McEacham was suddenly taken sick Monday while on the Sturgeon Bay side, and he was taken to the residence of Thos. Gillespie and medical aid summoned. Mr. Gillespie then secured a rig and started out to inform the boy's mother, who resides at Circle Ridge. Arriving at the bay shore, near the residence, Mr. Gillespie tied the horse, and soon after the lady, with her daughter, were on their way to the cutter. The horse seeing the trio coming toward him in the dim light took fright and breaking his fastenings fled back to his stable, and the unlucky ladies and gentleman were compelled to make the distance on foot. Willie's ailment was pronounced inflammation of the stomach, but it is thought that he will come out all right.

## Farms for Sale!

The undersigned offers for sale two farms eighty acres each, situated in the northern part of the county. The following is the description: NW NW and the SW SW of Section No. 22, Township 30, Range 27. NW SE and the SW SE of Section 22, Township 30, Range 27.

For further information and terms call on address

F. J. HAMILTON, CH

## For Sale Cheap

1892 February 06

Geo. J. Town of Clay Bank, known as the Stumpges' farm. About 40 acres cleared, house, barn, etc.

Also several hundred acres known as the Horn Pier property, with buildings, etc. Also 1 class heavy Detrick No. O Hay Press and 1 hay sheds at Horn's Pier. Apply to The W. H. HORN CEDAR & LUMBER CO. 503 Chamber of Commerce Building, Chicago

### SPECIAL NOTICES.

HOUSE TO RENT.—Suitable for a family. Apply to H. G. HILDEBRAND.

FOR RENT.—A dwelling on Spruce street suitable for a good-sized family. Inquire Mrs. John P. Graass, City.

HOUSE TO RENT.—A house situated on Bay View, large enough for two families for rent. Call on Henry Erdmann, city.

WANTED.—2,000 cords of steamboat wood to be delivered at Merchants' Dock. If made arrangements to buy for cash. Apply to GEO. PINNEY, Evergreen, W.

### MONEY TO LOAN.

Money to loan on good farm security. R. P. CODY, Sturgeon Bay, W.

### New Blacksmith Shop.

I have opened a blacksmith shop a half a mile east from SS. Peter & Paul church. Sevasto Horseshoe 15c for setting; 35c for new work. Wood repairing done also. Will give sixty minutes if necessary. JACOB KLOTS, Proprietor

### FROM THE FOURTH WARD.

Mrs. Andrew Koch is very ill and it is feared that she will not recover her health.

Olive Whittaker went to Chicago on Tuesday, where she will remain with relatives for an indefinite length of time.

H. H. Fuller and family went out to Forestville on Sunday and took possession of the Germania house, which Harlow recently leased.

Robt. Noble went north one day this week with a load of agricultural implements which he had disposed of in that part of the country.

Miss Mary Weber, a daughter of John G. Weber, of the town of Gardner, was in the city on Tuesday being on her way home from Chicago where she has been for some time.

Quite a force of men are employed on Chas. I. Martin's dock making the necessary improvement. A solid pile foundation has been made for the warehouse, and Capt. John McDonald is now engaged in moving the building to its new location. The work of driving the piles is being superintended by Jack Ryan which is a guarantee that it is being hustled along at a lively rate. The clippings from the shingle mill are being dumped on the property and the shoal water will all be filled in making a solid lot of the whole place. If this city had a half dozen more business men like Mr. Martin the place would have to boom; it couldn't help itself.

This part of the city had a narrow escape from having a serious conflagration on Sunday. Albert Lemke and family, who occupy a part of the lower floor of the old Noble building, went to church on Sunday leaving a fire in their stove. Shortly after, A. J. Fellner, who lives upstairs in the same building, smelled smoke and up on investigation found that it came from the rooms occupied by Mr. Lemke. He

### LITERARY NOTICES.

Where do you get your coal? Do you know? Were you ever in a coal mine? Can you imagine what one looks like? Or what kind of folks the miners are? Or how their families live? After you have read that splendid paper in the March number of Demorest's Family Magazine, "Through the Coal Country with a Camera," and studied the twenty-odd fine pictures which illustrate it, every piece of coal you see will be invested with a new interest; and when you read about "strikes" among the miners, you will better appreciate their true significance. Photographs were taken specially for this article, and have been reproduced in superb style.

"German Without a Master," by Prof. A. de Rougemont of Chautauqua University, will be of incalculable value to those who wish to study that useful language; "The Home of a ... 1892 Feb 18 ... artistic results without a great expenditure of money; and "How to Ivorize Plaster Casts" tells how to make those pretty ornaments look like ivory. "Next Summer's Garden" is in good season, so that the garden may be planned properly, and a profusion of flowers ensured all through the summer; "Training a Husband" will amuse everybody; and there are other splendid stories, and all the excellent departments for which this magazine is noted are replete with seasonable things. The subscription price to this ideal Family Magazine is only \$2 a year. Published by W. Jennings Demorest, 15 E. 14th St., New York.

### Catarrh Can't be Cured

with local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you have to take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is no quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials free. F. J. CHENEY & Co., Props., Toledo, O. Sold by druggists, price 75c.

be perfected.

Capt. E. N. Anderson has secured the agency for the White Star Line of steamers, and if you intend to visit the old country, or have friends come here from abroad you should give him a call.

Joseph Deffoe has gone up to Wausaukeo to look after some timber which is being got out for Whiteside, Thorkildson & Shaw. By the way, it may be of general interest to the public to know that this firm's business is larger now than ever, and its disbursements for the past year aggregated upward of \$20,000. This was paid out for labor, logs, bolts, wheat, etc. This establishment is really the only one on this side which furnishes any considerable amount of employment the year round.

Chas. I. Martin has made a wonderful change in the Harris dock property since he commenced work a couple of weeks ago. Not only will the wharf be carried out into the bay another hundred feet or so, but extended to the shore the whole width. Piles have been driven on the side and plank so placed as to form a revetment. On the inside of this refuse from the mill is being dumped, and when all the space shall have been filled in the top is to be covered with earth and gravel. This will make it one of the finest water privileges on the entire bay shore.

From Washington.

To the Editor of The Advocate:

TUMWATER, Wash., Feb. 13—Having promised to come again, here I am. First let me correct a mistake that appeared in the ADVOCATE of January 18th in reference to my coming back. I hadly think I shall. I also observe in the same issue an article in which it is announced that the "laborer is worthy of the hire." Those are just my sentiments, and if you or anybody else will examine our books you will see that we paid out about \$1,400 per month to our laborers for work. Now the balance due to them is only \$700, or half a

There has been no snow here as yet and the ranch owners are plowing and getting ready for spring work. They do not raise much grain here, but, oh my, what potatoes, cabbages, beets and other vegetables! Cabbages, beets and turnips are left out of doors all winter and they do not freeze enough to injure them.

The weather for the past three or four weeks has been very pleasant. Very little rain has fallen. Times are what may be called "hard" in this country. Money is very scarce and no work and vegetat that you say

its agricultural advantages. Timber is plenty of course, and it is of a very good quality also. E. W. BREWSTER.

1892 Feb 27

Gentlemen: After careful consideration and investigation of the claims of Alex. Melkle and C. W. Sanderson, referred to me at your last meeting. I beg to inform you that for neither of those claims is the city liable.

Dated Dec. 3, 1892. Respectfully submitted,  
(Signed.) Y. V. DRETZER, City Att'y.

On motion the report was ordered placed on file.

On motion the claim of C. W. Sanderson filed Nov. 28th, 1892 for \$25 for an Italian Marble Slab was disallowed in full as not a legal charge against the city.

On motion the claim of Alex. Melkle, filed Nov. 28th, 1892 for \$2.70 for nine chickens, was disallowed in full as not a legal charge against the city.

The following resolution read, to-wit:

Whereas, Chas. I. Martin by his petition made and filed in the office of the City Clerk, October 14, 1892, did pray that he might be permitted, authorized and empowered by a resolution or order of the council of the city of Sturgeon Bay to stump and extend that certain alley or street 28 feet wide, not heretofore opened, shown on the plat of Bay View, now the 4th Ward of the city of Sturgeon Bay as having been dedicated by said plat to the public use, between Lot 10 in Block 8 and the south line of Block 9 in said plat, and extending east and west between Blocks 7 and 11 across Union street, between Blocks 8 and 9 to the shore line of Sturgeon Bay.

Therefore, be it resolved that all that part of said street or alley not heretofore opened for public use be and the same is hereby declared opened and the said dedication thereof accepted.

And be it further resolved, that said Chas. I. Martin be and he is hereby empowered to stump, grade and extend said street or alley and put the same in good passable condition at his own expense, east from Union street, between the north and south line of said street or alley, extending east to the west line of said Lot 8 in Block 8, extended north to meet the south line of said street or alley extended east as aforesaid.

Dated December 3, 1892.

LOUIS P. NEBEL

On motion the foregoing resolution was unanimously adopted and ordered recorded.

The following statement read, to-wit:

To the City Council of the City of Sturgeon Bay:

The amount of taxes paid by me on the old Catholic church property is as follows:

Tax certificate No. 315, sale of May 15, 1888, amount \$1.86 for which my claim is the amount

mission, to the resident tax-payers of the city the proposition of the Ahnapee & Western way Company filed with the city clerk Au 30th, 1892, read and on motion ordered placed on file.

On motion it was voted to grant the price of the petitioners of the resident tax-payers accept and carry into effect the proposition.

1892 December 10

In authorizing the city of Sturgeon Bay to issue bonds to the amount of Six Thousand Dollars (\$6,000) in payment of Sixty (60) shares of stock of the Ahnapee & Western Railway Company, read and

On a motion for its adoption the "ayes" and "noes" of the council were called with the following result, to-wit:

Smith aye, Hay aye, Nebel aye, Reynolds and Hildebrandt aye-5.

The ordinance was declared unanimously adopted and ordered published.

The following resolution read, to-wit:

Resolved, That the sum of One Hundred Fifty Dollars be and the same is hereby appropriated to Henry Wieseckel for a quit claim deed of the new highway through his land in the 4th Ward in said city and that a city order for the sum be issued to said Wieseckel therefor.

Be it further resolved, That the sum of One Hundred Dollars be and the same is hereby appropriated to David and Mary Greenwood for a quit claim deed of the right away for said highway through Lot 17, Subdivision 61 in the 4th Ward of the city and that a city order be issued to them therefor. (Signed.) Louis P. Nebel

On a motion for the adoption of the resolution the "ayes" and "noes" of the city council were called with the following result, to-wit:

Hildebrandt aye, Smith aye, Reynolds aye, Hay aye, and Nebel aye-5.

The resolution was declared unanimously adopted.

Ordinance Number 43, entitled, Of Laying out and Establishing a certain highway in the 4th Ward, read, and

On motion declared unanimously adopted Application of H. G. Hildebrandt for a transfer of a druggist permit issued by the city clerk to H. A. Stiles, read.

On motion the application was granted and a mayor and city clerk were authorized and instructed, upon delivery to the city clerk of the permit issued as aforesaid to H. G. Hildebrandt.

been engaged during the past week in running the south line of the government reservation for the primary purpose of ascertaining whether the parties accused of trespassing have really committed the offense of which they stand charged.

The boys took the cannon across the bay last Saturday evening to assist in the ratification exercises. A good many people also crossed the bridge to attend the jollification which took place in the hall, and all were well pleased with the speeches and addresses made on that occasion.

Everybody is anxiously waiting for the carrying out of the wager made between Chas. A. Cocagne and J. A. Bernard. The latter agreed to wheel "Yankee" across the bridge as far as the court house if the Republicans were successful, as readers of the ADVOCATE are doubtless aware.

A. W. Lawrence & Co. have signified their willingness to erect a large and convenient warehouse on the Martin dock during the ensuing winter from which shipments of farm products can be made direct to all points by either water or rail. This would be a great convenience to buyers operating on this side of the bay.

The Republicans in this vicinity had made preparations for another horse parade on Saturday afternoon but the elements were too much for them, and the undertaking had to be abandoned until a more favorable time. The boys say they are determined to have the "blowout" even though they have to wait six months longer for the weather to get settled.

Eugene Bernard this week caused the arrest of Henry Erdmann, whom he charges with the larceny of a quantity of lumber belonging to the Washington Ice Co., of which the complainant is the authorized local agent. The material is said to have gone into the building which defendant is remodeling. The case will come up for trial before Justice Dehos on

Lara Medsen and Anton Christianson, members of the crew of the Francis Hinton, were in the city Wednesday on their way to their respective homes in the northern part of county.

Mrs. Jas. A. Heard is suffering with a tumor which has made its appearance in the stomach. She will probably have to be taken to Chicago for treatment. The case is a peculiar one.

A. J. McCune, mate on the Hinton during the past week, returned home Wednesday, his boat having gone into winter quarters at Manitowoc first of the week.

Jas. T. Empey, one of the proprietors of Ahnapee marble works, was in the city Wednesday delivering work and securing orders. This firm has a monopoly of the cemetery work in this county.

Prof. J. N. McCunn, proprietor of the Green Bay Business College, was in the city yesterday of Saturday. The Prof. is a candidate for district oil inspector, and the ADVOCATE trusts he may secure the berth.

Mr. and Mrs. E. S. Minor and daughters Mabel and Maud went to Green Bay Monday to participate in the Republican jollification which was to have taken place that evening but which was postponed on account of unfavorable weather. They returned here the next day.

A letter received from H. G. Birmingham within the week, who is sojourning in Pasadena, Cal., states that his wife's health has yet been benefited by the change of climate although the weather has been perfect, but not having seen even so much as a cloudy day since their arrival on the Pacific coast.

Ernest Johnson, Carl Johnson and John Jarns were in the city Wednesday on their way home at Ellison Bay. These young men were up in the upper peninsula of Michigan looking for some of those \$25-a-month

ting must be the best the market affords when this firm ships it outside. They have a business reputation to maintain and are determined to keep it above par no matter what the cost.

John Berg has received the amount of insurance on account of the hay destroyed by the burning of the steambarge Mary Mills while lying at the Circle Ridge pier early last winter. The risk was held by Decker & Fetzer. He states that the loss on the vessel has also been paid. Mr. Berg reports a great demand for hay, and he would have no trouble in disposing of a thousand tons if he had that much. He has kept five presses going all winter, but the stock is pretty well exhausted by this time. Shipments are made to all points of the compass.

The tearing away of the north part of the structure on the A. W. Lawrence wharf continues, but is slow and tedious work. It is the intention of Mr. Lawrence to extend the dock about ten feet on the north, which is where the proposed elevator will be located. The old refrigerator will be converted into a planing mill. The dock will be run out in the bay about twenty feet and come to a point at the end. The present wharf will be entirely under cover, giving an abundance of storage room for peas, grain, hay, etc. John Ryan will drive the piles for the intended improvements.

Miss Alice Samuelson has been in Chicago for a good while attending business college. She completed her course several weeks ago, but up to this writing she has not succeeded in obtaining a position. The people who employ such talent are very exacting in their demands, it would appear. Miss Samuelson recently answered an advertisement for a stenographer and bookkeeper, and although a person competent to keep a set of double entries was requested all the pay offered was \$5 per week, which is hardly sufficient to keep soul and body together in a city where living is as high as it is in the Western metropolis.

### AMONG THE WEST SIDERS.

Capt. E. N. Anderson and wife returned home from Chicago Wednesday by rail.

A large number of people from this ward attended the memorial services held on the east side Thursday afternoon.

The schooner Industry this week took a load of pressed hay from here for Telford Haines. It went across to Menominee.

John Loslie has fully recovered from the accident that befel him during harvest time, and is once more able to pursue his duties about the home and on the farm.

O. B. Olson, is engaged in the construction of the foundation of a new barn which is to be built next year. It is 40x70 feet, 9 feet high. Ole Knudson is doing the mason work.

The German Lutheran mission festival held last Sunday was not as largely attended as it would have been had the weather been more favorable. The net sum realized from collections and dinner was about \$22, which has been turned over to the proper parties by Pastor Schultze. The money will be devoted to home missions.

Matters in the new elevator had progressed sufficiently to enable Teweles & Brandeis to take possession of a part of the building on Wednesday, since which time all the grain and peas have been stored therein. The firm will continue its office in the Goetelmann building, where Mr. Brandeis will do the buying and make payment.

Thos. Bunt, the process man of the local cannery, on Monday removed his family and household goods to the east side, where he will henceforth reside. The building made vacant by reason of this has since been occupied by James Cornwall, whose family arrived here from Oconto within the week. Mrs. Cornwall is a sister of Mrs. Chas. Beck of the Third ward.

All the flags owned in this ward were displayed at half-mast on Saturday morning, and universal sorrow prevails in every household and habitation in consequence of the

great delay if not actual loss. The construction of this fine and commodious building will be the means of putting thousands of dollars in circulation in this city at a time of year when labor is kind of slack, and it is therefore a good thing in more ways than one.

### PERSONAL AND OTHERWISE.

Landlord Slaby of the Ahnapee House, Algoma, was in the city Wednesday.

Joseph Minor, steward of the tug Duncan City, was among our callers Friday morning.

Ernst Wiegand and Miss Anna Urban of Jacksonport were among our callers Monday.

John Leathem on Tuesday took his departure for Louisiana on a matter of business.

Mrs. Peter Bhirde spent a few days at Menominee the past week, the guest of her daughter.

Mrs. Mc... a few days to her ailments.

John B. Strabants, one of the prominent farmers of Brussels, was among our callers Saturday. Always glad to see John B.

Fred. Arlt returned here last week from Tomahawk, and will probably stay some time with his daughter, Mrs. Geo. Mainz.

Wallace Ives and wife returned Friday from their visit in Ohio after an absence of two or three weeks. They had a very agreeable time during their absence.

Aug. Bliesner received the sad intelligence Sunday morning that his brother Fred, had died the night preceding at his home in Arcadia, Wis. He was about 67 years old.

Mrs. Jas. Brooks and daughters, Neva and Lottie, and Miss Edna Oakley made a round trip on the Goodrich line boats, returning home Sunday after a week's absence.

Chas. Bergman and son-in-law, Even Olson, of Rowleys Bay and Hedgehog Harbor

# THE ADVOCATE, JULY 26, 1902.

## AMONG THE WEST SIDERS.

Miss Mary Walsh is spending her vacation at her old home in Two Rivers.

John Renier was down from the upper peninsula for a few days this week.

Seven saloons now supply the thirsty ones with liquid refreshments, and there is talk of still another.

The elevator has been connected with the warehouse by means of a building erected for the purpose.

Jos. Stoneham was over from Forestville on Monday looking after some business matters for a few hours.

A little daughter arrived at the home of John May on Saturday, and there is joy in the household ever since.

Sawyer now has four resident ministers, all the churches being represented. These are Protestant denominations.

Ben. Miller has nearly or quite recovered from the effects of the accident that happened him about two weeks ago.

A petition is being circulated and largely signed by the residents of this ward asking that the territory be separated from the city.

Capt. Gus. Forland this week purchased a couple of lots from A. T. Harris, paying \$250 therefor. He will erect a dwelling thereon in due time.

Howard Jacobs is able to be about again, but he is exceedingly careful not to get a second set-back, one being quite sufficient for all time to come.

All the mechanics residing on this side of the bay continue as busy as bees, and the indications are that they will be kept going until the final freeze-up.

Bushman place have been completed, and everybody is well pleased therewith. The present administration will put all the main thoroughfares in the city in as good a condition as possible at an early date, or as soon as it can see its way.

Mrs. John M. Louie, Hattie and Birdie and son James arrived here from Milwaukee Monday and will spend the ensuing month or two at Circle Ridge, having leased the McDonald residence for the purpose. The family is a relative of E. S. Minor, and are old and esteemed residents of the Cream city.

Jens Onanson was on Saturday afternoon taking in charge by Officer Barnard for being drunk and landed him in the city lock-up. The offense in this instance was the fact that Jens is on the blacklist, and as he had a bottle of liquor in his possession it was prima facie evidence that some one had been violating the law in furnishing him drink.

There were three steamers at the refrigerator wharf within a short time of each other last Monday. First was the Marquette, followed by the Green Bay. The second had not more than got away before one of the Hart boats got in. There must be pretty slim picking for some one, although it is said that all the boats are doing a pretty fair business notwithstanding the competition.

Chas. Gustafson was over from Little Sturgeon Monday and among the articles he took back home with him was a box containing six dozen frogs, which had been expressed from Milwaukee to a party who is spending his vacation at the former place. They will be used for bait, which is a very scarce article. While there are plenty of minnows and worms for perch fishing the

Lintner and Mrs. Benzmann are daughters of Mr. and Mrs. Fred Pagel of this place.

Work of decorating the interior of the Norwegian Lutheran church is now under way, the artistic work being done by Messrs Christ Nelson and Christ Williams. It is expected that the church will be ready to dedicate in about three weeks.

Since the ice has become firm on Green bay, a number of our citizens have made business trips to Menominee and Marinette. With good traveling on the ice traffic between this place and the west shore will be greater than in former years.

Towels & Brandies contemplate making extensive improvements around their dock property during the present winter. The dock will be extended on the south side, also an addition built to the warehouse. An addition is now being built to the ice house.

Wm. Hemholtz and wife, of Chicago, and Henry Hemholtz, of the same city, who were called here the latter part of last week on account of the death of their father, have returned home, the former leaving Monday morning and the latter on Thursday of last week.

The choir of the Congregational church, on the east side, will give an entertainment in the near future for the benefit of the Friends church, of this place. If the plan is carried out, no doubt the entertainment would be largely attended by people here, it being for a good cause.

D. E. Bingham, who is representing the Menominee River Sugar Co. has made a number of contracts with farmers in this vicinity for raising sugar beets during the coming season. There will probably be a larger acreage in this vicinity the coming season than there was a year ago.

Miss Anna Perry returned from Forestville on Saturday where she had been spending her holiday vacation. She resumed her duties as teacher in the public school on Monday. Miss Mary Walsh, principal of the school, also returned Saturday, having spent her vacation at Two Rivers.

Son. "It is a beauty.

The steamer Georgia took on a big jag of freight at the Teweles & Brandeis wharf on Tuesday on her way south.

B. Lyons & Co. made some repairs to their wharf, the past week, the work consist- ing of filling in with dirt and gravel.

Miss Nora Jacobs on Saturday left for Chi- cago, where she will spend a couple of weeks visiting with relatives and friends.

Leo Portzen and Miss Ruby Edict of Clay Banks were on Tuesday morning married at the Corpus Christi church, Fr. Peters per- forming the ceremony.

A. P. Johnson, Jas. Pfeifer, Wm. Deutsch, Mrs. Peter L... and Mrs. Peter Green- wood left Monday for Milwaukee to view the sights at the State fair.

Teweles & Brandeis are engaged in filling in around their dock property for the pur- pose of making a roadway along the railway tracks and to their pea warehouse.

C. E. Oleson is busily at work finish- ing up the interior of the Thos. Gillespie store on the East side. He has been employed in the town of Nasewaupsee nearly all of the past season.

The gasoline launch Belle, Capt. Wm. Braunsdorf, was in port Saturday, having some minor repairs made. She is in the fruit carrying trade between here and east lake shore points.

The local canning factory has been haul- ing and threshing the Alaska peas that had been badly injured by the heavy rains which fell recently, as that variety can stand but little damp weather.

There is some talk of building a cement walk along the south side of Maple avenue from Bayman's corner up to the new Catho- lic church on Bellevue Heights, a beginning to be made this fall.

Jos. Harris & Son will build several launches during the ensuing winter, which will range from 18 to 24 feet in length. They will be disposed of as the demand is made, several having been ordered up to date.

The linemen of the W. T. Co. have been doing a great deal of work in the business center of Sawyer during the past week put- ting in overhead cables and otherwise get- ting the system in the best condition for service.

Between threshing and attending court the farmers in this vicinity have been kept busy for the past week or two and few are to be seen on the streets. Only the most pressing wants of the household bring them

**A Close (?) Call.**

Will and Ed. Reynolds on Sunday went from here to Hedgehog Harbor and back in their automobile, leaving at 9:15 a. m. and returning at 6:15, the roads being in excel- lent condition.

They report a laughable incident that took place in the extreme northern part of the county. While running along at a moderate rate of speed they saw in the distance a farmer and his family, who had stopped fully half a mile away and were hastily climbing out of the vehicle and over the fence, wh hitching smash-up

1905 Sep 16

Stopping the auto at a safe distance they waited until he had everything clear and then slowly approached the spot where the man stood holding the horse by the bridle. When probably fifty feet from him the head of the family let go his hold on the horse and bolted for the fence, which he lost no time in putting between himself and the approaching "demon." Left to itself the horse eyed the auto critically as it approached, but showed no signs of fear, back- ing up a few feet as the machine passed. When everything was safe and the machine half a mile away the family crawled back over the fence and hitching up resumed their journey, no doubt congratulating themselves on their narrow escape.

**Boquets for Chief Stroh.**

Under the heading "A Word to Sturgeon Bay" the following article appears in the Police and Fire Dispatch, published at Offi- cago, under the date of September 9:

"The city council of Sturgeon Bay, Wis- consin, cannot afford to fail in appropriating for a single thing recommended by their up- to-date fire chief, Frank J. Stroh. A guest of Captain Schimmels, the veteran com- mander of Engine 25 for two weeks, there was very little in fire-service improvement in Chicago that Mr. Stroh overlooked. At the same time he managed to watch keenly the work of the convention of fire chiefs in Duluth.

"Sturgeon Bay has probably 5,000 people and they certainly can well procure the fol- lowing safeguards: Waterworks in the first place; a fire hydrant on each corner; more ladders, especially one that will reach the roof of a four story building; relief valves on the three engines they have; a chemical engine and hose wagon combined; two hand pumps. When the new house has been completed, let the old one be overhauled. And keep no less than two men at each house day and night.

"Chief Stroh forgot to inspect the im-

a larger gang of nets.

The number of farmers seen in town daily has decreased very materially since the pea straw fodder has all been disposed of. The roads have been in very poor condition of late and the people from the rural districts do not come to town unless they have something necessary to come for.

The Warner boys are having their launch lengthened out in the boat shop of M. B. Peterson. The craft will be cut in two amidships and lengthened three feet, and two feet will be added to the stern, making the boat twenty-three feet long over all. The changes will make the boat a better carrier and increase her speed.

The Sawyer Lumber Co. are rebuilding about one hundred feet of 'Teweles & Brandeis' dock, which is used by the former firm for unloading lumber from boats. The repairs are temporary as the owners of the property are planning on filling in under the structure with stone in the near future which will make a permanent job of it.

~~Charles Washburn has sold his resi-~~  
dence on State street to John Liddle, of Nasewaupée. The residence will be occupied soon by Peter Hagman. Mr. Washburn will build a new residence on an adjoining lot and work will be commenced as soon as the frost is out of the ground. The sale was made by Chas. Graf, the local real estate dealer.

L. P. Nebel has moved the hay warehouse belonging to Lyon Bros. from the north to the south side of the dock. The dock where the warehouse formerly stood will be filled in with stone and dirt and used for a coal dock. This will make it much more convenient for

were unable to secure enough men here last year to keep the quarries running to their full capacity.

Pat Hayes and Elmer Page, who are fishing with the gasoline boat Sea Gull, came near spending Monday night out in the lake. They had lifted their nets and were on their way to the canal when the pin that holds the propeller wheel on the shaft became loose and they were compelled to run the engine very slow to prevent the wheel from dropping off the shaft. They did not reach the ca

1908 Mar 21

the wind been blowing hard on shore their boat would have been carried out into the lake and as a gale of wind came up during the night there is no telling what would have become of them.

The Green Stone and Quarrying Co. on Saturday closed the contract for the purchase of the barges A. A. Carpenter and Myron Butman from Capt. Jas. Madigan, of Buffalo. The former craft is 165 feet long, with 33 feet beam, and measures 540 gross tons; the latter is 164 feet long, 31 feet beam and 424 gross tons. This will give the company three very good stone carriers and with the big tug Torrent to tow them they will be able to make quick trips as they are all good sea boats and are in good condition. A peculiar coincidence in connection with this sale is the fact that the barge Baldwin was used for many years to tow the Carpenter and Butman and the last trip the Baldwin made under her own motive power these same two tow barges were her consorts. It will be remembered that the Baldwin was sunk in Green Bay several years ago while endeavoring to force her way

& Brandeis dock property which includes the building now being used by the Rapple Cheese Co., and as soon as plans can be formulated a large office and lumber storage building will be erected fronting on Maple Ave. The lumber company have also leased a tract of land from the railroad company north of Hembel Bros. warehouse, with a 100-foot frontage on Union St., which will give them an outlet on the two principal streets and also give much needed room for the storage of building material.

Teweles & Brandeis will extend the dock 100 feet or more toward the shore on the south side and dredge a channel alongside to a sufficient depth to permit vessels to land at any point along the water front.

When the contemplated plans are completed the Sawyer Lumber Co. will have one of the most complete and convenient lumber offices and yards to be found in the state

#### Anniversary Jubilee a Success.

The jubilee given by the German Lutheran congregation of Nasewaupée in Keller's grove in the town of Gardner last Sunday to commemorate the thirtieth anniversary of the founding of the church was carried out in full as announced in last week's Democrat. The day was an ideal one for outdoor meetings and about 600 attended, including representatives from the German Lutheran congregations at Sawyer, Sevastopol, Forestville and Kolberg.

Rev. Bergholz, of Kewaunee, delivered the sermon in the forenoon and Rev. Minenthal, of Kolberg, gave the sermon in the afternoon. Rev. Schumann, pastor of the church, read the history of the Nasewaupée church and the Sawyer

1912 Jun 14

Thos. Bunt will buy berries and other fruit in Sawyer this year and will have headquarters at Teweles & Brandeis' dock.

The court has confirmed the sale of the Lyon Bros. elevator and the deed has been delivered to the original owners.

Jos. Hoslett had sufficiently improved by Monday so as to be able to be down to the store a short time. He has had a hard pull from rheumatism for a month or more.

Mrs. Frank Rayman died at Green Bay on Wednesday after a lingering sickness due to tuberculosis. She leaves three children to mourn her death.

Miss Christene Jochum, a sister to Rev. J. L. Jochum, arrived here last Friday to spend a month. Miss Jochum is a Deaconess in the German M. E. churches in Chicago.

The work of filling in the roadway to connect the new bridge with Union street has been completed and the public have been using the new bridge since last Saturday.

Frank Huber has completed a large refrigerator for the Idlewild Inn summer hotel. Frank is an expert at this work, he having built several large coolers for local parties.

Nelson & Hawkey's merry-go-round was moved from Sawyer to Forestville the fore part of this week and the outfit will not be brought back to this city until

their home indefinitely.

Friends here have received the information that Elmer Robinson, who lives in the neighboring town of Clay Banks, and who is a wheelsman on the steamer P. J. Kirby, recently passed a successful examination for pilot's papers, securing unlimited documents for the Great Lakes, which is something to be proud of considering the time he has been in the business.

A farmer from a neighboring town was taken into custody Monday night by Officer Hall on the charge of being cruel to his horses, which had been left on the streets without attention for six or seven hours. He appeared before Justice Hamilton on the morning of the day following, who assessed him a fine of \$20 and costs, amounting in \$24.75.

Norman, the 10-year-old son of Rev. Jordanheim of Vignes, had his nose broken on Saturday. He was driving a team when a rope broke and in some way the whiffletree flew back and struck him squarely across the nasal organ, smashing that useful member flat and crushing the bones. The boy was brought here and Dr. Kreitzer dressed the injuries, and hopes to get a useful as well as fairly good looking nose out of the damaged member.

Green's pile-driver was brought here from Green Bay by the tug Torrent on Monday and was soon afterward put to work on the Taweles & Brandeis dock. Here it is intended to build an addition to the south side of the wharf 60 feet long and 18 feet wide from the end of the warehouse to the shore line. A channel will be dredged alongside the wharf to enable boats to land there without difficulty. The dock is to be utilized by the Sawyer Lumber Co.

The railroad company are desirous of putting in a stockyard on this side of the bay, but are delayed in doing so because of the fact that there is a building on the ground where the yards are to be located. This is alongside of the Lyon elevator. The structure on the premises is the property of Isaac Johnson, of this ward, who it appears will not move off the place. The railroad company state that ejection proceedings will be commenced to get possession of the

candidate for the office of sheriff of Door county at the coming general election to take place in November, and promise if elected to perform the duties of the office to the best of my ability and for the best interests of the taxpayers. I respectfully solicit the support of the voters.  
H. A. WAGENER.

#### For Member of Assembly.

[To be paid for at 5c per line. Written and authorized by L. L. Johnson, Clay Banks, Wis.]

I wish to announce myself a candidate for renomination for Member of Assembly from Door county at the September primaries, as a Progressive Republican. If nominated and elected I will serve the people of Door county to the best of my ability.

L. L. JOHNSON.

[To be paid for at 5c per line. Written and authorized by Louis Solomon, Sturgeon Bay, Wis.]

#### For County Treasurer

I herewith announce myself as a candidate for the office of County Treasurer of Door County on the Republican Ticket at the primary election to be held in September, and promise if nominated and elected to perform the duties of the office in a capable and efficient manner.

Sturgeon Bay, Wis. LOUIS SOLOMON.

[To be paid for at 5c per line. Written and authorized by Frank Wellever, Sturgeon Bay, Wis.]

I announce myself a candidate on the Republican ticket for clerk of court at the September primary. If nominated and elected I pledge myself to perform the duties of the office to the best of my ability.

FRANK WELLEVER.

[To be paid for at 5c per line. Written and authorized by Emil Miller, R. No. 2, Forestville, Wis.]

#### Announcement.

I hereby announce myself to the voters of Door county as a candidate to the office of county treasurer on the Republican ticket at the September primaries, and if nominated and elected I will perform the duties of said office to the best of my ability.

Brussels, Wis. EMIL MILLER.

#### Announcement

[To be paid for at 5c per line. Written and authorized by Otto Nelson, Sturgeon Bay, Wis.]

I hereby announce myself as a candidate for Register of Deeds at the September Primaries, on the Republican ticket. If nominated and elected, I will perform the duties of said office to the best of my ability.

OTTO NELSON.

Adolph Arlt got into the toils of the law again on Tuesday, Officer Jas. Hall causing his arrest for neglecting to properly feed and care for his team while in the city, the horses, having stood on the street for several hours unfed and tormented by flies. As Mr. Arlt has been arrested for similar offenses no less than half a dozen times before, the judge was not very lenient with him this time, imposing a fine of \$20 and costs, the total sum amounting to \$24.25.

Work was commenced this week driving piles for the extension of the Teweles & Brandels dock, which has been leased to the Sawyer Lumber Co. A first class dock will be continued along the south side of the property where the small boat houses now stand at the foot of the street. A dredge will be engaged to deepen the channel so that boats of good size will be able to enter. The Green Co. has the contract to drive the piles. The driver is also putting down the piles for the extension to the grist mill dock.

**Heilman-Cofrin Wedding.**

On Wednesday morning at 11 o'clock at Corpus Christi church in Sawyer, a very pretty wedding took place when Miss Ruby Marguerite Cofrin, youngest daughter of Mr. and Mrs. Ashley Cofrin, became the bride of Henry Fredrick Heilmann, son of Mrs. Mike Heilmann. The wedding ceremony was performed by Rev. H. N. Pfeifer.

The bride was attended by her most intimate friend, Alvina K.

below: S. S. 10 a. m. We note with gladness a goodly attendance of little folks in the Sabbath school. Sermon 11 o'clock, topic, "Fellowship." ality.

over solid enough for them to work with-  
out the danger of losing their nets.

The residents of the Circle Ridge dis-  
trict want electric light service. There  
are several families living in this vicin-  
ity who are anxious that the city should  
extend its lines so that they can install  
the more modern method of illumina-  
tion, and to this end have petitioned  
the city fathers to build in the neigh-  
borhood of a mile of line. The peti-  
tioners have been assured that if there  
is a possibility of the patronage being  
sufficient to warrant the investment  
the line will be built.

Teweles & Brandeis are having their  
dock given its annual overhauling and  
repairs, the work being in the hands of  
Frank Huber and John Rank. This  
work can only be done to advantage in  
the winter, when the ice will permit the  
carpenters getting underneath the struc-  
ture for the purpose of renewing timbers  
or piles that may need it. The ware-  
house also came in for its share, it being  
found necessary to jack up the struc-  
ture at one end where the enormous  
weight that is sometimes placed in it  
had caused a sag. One thing the local  
commission firm does is to keep their  
buildings and property in the best pos-  
sible condition at all times.

Mrs. Wm. Mulvihill and daughter Ella  
of Laramie, Col., were the guests of  
James Hall and family for a couple of  
days within the week, while in this vic-  
inity visiting relatives. They were ac-  
companied by Mrs. Jas. McLachlin of  
Sevastopol. The Mulvihill family have  
been living in the west for several years  
past, where they have a rented ranch  
and are doing very nicely. All things  
considered. Mrs. Mulvihill found things  
rather different from this part of the  
country on the arrival of the family at  
Laramie, which is a cattle raising com-  
munity. One of the things that appeals  
to the eastern farmer more forcibly per-  
haps than anything else when first reach-  
ing the west is the fact that although  
the ranchers may have hundreds of cows  
that are in condition for milking they

# C. GREI

B Cheeseman on Wednesday, April first.

The Democrat is issued in twelve page form this week to accommodate an excess of advertising and other matter.

The Woman's Missionary Society of the Congregational church will meet with Mrs. E. Reynolds, Tuesday afternoon, March 31.

The free moving picture shows given by some of our merchants on Thursday afternoons, have been discontinued for the present.

Sheriff Ben Miller on Monday delivered Emma Tiedemannson of Forestville at the Home of the Feeble Minded at Chippewa Falls.

The Washburn Lumber Co. is rebuilding a large portion of its dock, and Teweles & Brandeis have the dock in front of their elevator ready to be filled in with stone.

A Kalmbach has been shipping large quantities of fresh fish during the past two weeks and several men are kept busy cleaning, smoking and packing smoked fish.

Harry Dana had the tip of the second finger on his right hand taken off when his hand became caught in the gearing of an auto around which he was working at the Dana garage.

Students of the high school will hold a "Mock Trial" at the gym on Thursday next, which gives promise of being very interesting and amusing. A small admission fee will be charged.

The regular monthly business meeting of the Ladies' Aid of the M. E. church will be held with Mrs. Nic Simon on Thursday afternoon, April 2nd, at 2:30. Refreshments served, and a large attendance is desired.

The county camp meeting of all the Woodmen' camps will be held at the court house in this city next Wednesday, April 1st. At this meeting a delegate will be elected to attend the state camp meeting at Fond du Lac, in May.

The Simon Land Co. want the

parlor, and it sets off the other beautiful fixtures in fine style. The boys have one of the neatest ice cream parlors in this state and are deserving of the good patronage they are receiving from the public.

Emil Nelson of Ellison Bay was here yesterday with his new fish boat formerly owned by Capt. Charles, who lives at the canal. Mr. Nelson has been operating out of Rowleys Bay and brought in a load of fish for A. Kalmbach. This boat will be remembered as the Avis and boat by Capt. Charles. It now has a full sized cabin and is one of the largest gasoline fish boats owned in this county.

The Goodrich boat did not come as far north as Sturgeon Bay last Monday, as had been expected. E. S. Ramage, the local agent, states that the steamer Georgia will leave Chicago for Sturgeon Bay on Saturday, April 4th, and will arrive here the following Monday. Mr. Ramage will open the dock warehouse and office next Monday morning. Lisle Sizer will be employed again this season as assistant dock agent.

Thos. Isabelle has purchased the gasoline cabin launch which was owned by Carl Dreutzer, the boat having been built a few years ago by the late T. H. Smith. Capt. Isabelle intends to take the craft to Hog Island, near the Straits, where he will use it in running to near-by places. The captain expects to spend much of his time on Hog Island in the future, having taken up a government homestead there.

But two banks in the city, the Merchants Exchange and Bank of Sawyer, placed a bid to become depository for the city's funds. The finance committee considered the rate of interest offered too low, it being a fraction above two per cent, and rejected both bids. The rate was considerably lower than that offered last year. However, in the present instance the banks were

week.

Martin Johnson's mother, who lives  
with him on the farm in Sturgeon Bay  
town, fell while walking in the yard  
Monday, the accident resulting in a  
broken shoulder. While ordinarily this  
would not be a very serious matter, the  
fact that the lady is eighty-six years  
of age, makes the outcome doubtful.

Teweles & Brandeis will fill in their  
dock property on the southwest extend-  
ing it to the street line. This will  
necessitate the removal of the boathous-  
es at the foot of Maple avenue. The  
firm owns the property on which the  
houses stand and feels that it can make  
use of it by improving their property.

Harry Marx made an unsuccessful at-  
tempt to cut off the little finger of his  
right hand. He is employed in the meat  
market of B. Haen and while trimming  
meat with a sharp knife permitted the  
implement to wander across his own  
anatomy with the result that the flesh  
was cut to the bone over an area of an  
inch or more.

Raymond Prescott returned to his du-  
ties in Chicago on Sunday after a pleas-  
ant vacation of about ten days among  
the scenes of his childhood. His family  
will remain until September 1st. Ray-  
mond is an employe of the city water-  
works station on the north side of the  
Windy City, a position he has held for  
the past ten years.

A card received from Andrew Peter-  
son conveys the intelligence of his be-  
ing confined in the St. Joseph hospital  
at Menominee, Mich., on account of a  
severe attack of sciatic rheumatism,  
which has affected his hips, legs and  
feet, and is causing him much pain. Mr.  
Peterson was steward on the Str. Louis  
Pahlow when taken ill.

Seventeen men from outside arrived  
here on Thursday and Saturday of last  
week, to work in the Green quarry, the  
company now having a crew of ninety  
on the payroll. An order was within  
the week received from Manistighe,  
Mich., for stone, and the firm has enough  
work in sight to keep the large crew  
busy until the end of the season.

Miss Ella Johns and David Bickel  
were married at the German Methodist  
church yesterday afternoon, Rev. J. F.

# Fire Destroys Large Brandeis Warehouse and Dock in Sawyer

## Library Patronage Again Shows Gain

### Miss Addis Reviews Successful Year in Report to Council

A report can be a dull affair, but with Miss Marion Addis, librarian, her annual statement to the city council this week was more than just an array of figures. Appended to the form required by law to be furnished each year was an interesting review as alive as the people who read the books, and a veritable mirror of the tastes and trends in this booming community.

As usual, there was an increase in circulation, 2865, to be exact. Adult fiction accounted for 53 per cent or 26,883 of the books loaned. Children's books loaned numbered 12,474, while adult non-fiction books loaned totaled 7,922.

"With less time to spend with books, much less trivial fiction is being read, and readers are showing a greater interest in national and world affairs," commented Miss Addis. "This is evidenced, for example, by the popularity of Wendell Willkie's book, 'One World.'"

Books giving a personal account of some part of our military campaigns are also in great demand, such as Ernie Pyle's, "Here is Your War." The circulation from this class was 1433, practically double that of last year. Reading of travel books also increased, for as our local boys reach the far corners of the globe, their parents and friends are eager to learn more about those places."

### Technical Books Popular

Even after the Smith Shipbuilding company started its own technical library last spring, the circulation of books of this sort increased about a fifth over last year.

Miss Addis remarked particularly about the steady growth in the children's department. Even during the summer vacation, the circulation increased, and 1900 more of these books were circulated this year.

Story hours for the children are held Saturday mornings through the assistance of the senior girl

## Not Many Seeking Their Muster Out Pay

Not many discharged veterans showed up at the Eagles club this week for help in applying for the new muster-out pay. Walter Bohler and Judge G. M. Stapleton were on duty Tuesday night, and V.F.W. Commander F. B. Parkman and Walter Stephan on Wednesday. The service was offered by the V.F.W.

Any veteran still wishing help in applying may see J. C. Weitemann, county service officer, at the post office, or Mr. Parkman at the city hall.

## \$264,400 to Go to Reach Bond Quota

### Smith Purchase of \$100,000 Exceeds Corporation Goal

WANTED: 265 persons in Door county to buy a thousand dollar war bond each.

This is the appeal sent out on Thursday morning by the Door County 4th War Loan committee when it was revealed that this peninsula is still short \$264,400 of making its \$393,400 quota by the end of February.

A purchase of \$100,000 worth of Series C savings notes by the Leatham D. Smith Shipbuilding Co. alone put the county over its quota of corporation purchases, so it's up to the individuals.

The corporation quota was \$97,500, and sales in that division have totaled \$11,000, according to bond officials. Out of 10 million dollar purchase, Standard Oil Co. of Indiana allotted \$1,000 to Door county; the Woolworth Co. likewise allotted a \$1,000, and the Wisconsin Public Service corporation credited this county with \$10,000.

Individual purchases up to Wednesday had totaled approximately \$517,000. The quota in this division is \$795,900.

The drive for corporation purchases ended Tuesday, but that for individuals lasts through Feb. 28.

## 3 More Burnlaric

## Adjoining Elevator Saved After Long Battling Flames

### Worst Blaze Since Prange Fire; Estimates Not Available

Sturgeon Bay's worst fire since the Prange-Washburn store burned some years ago swept through the large Brandeis dock and warehouse on the Sawyer waterfront Wednesday night, and only valiant work on the part of Chief George Jensen's firemen and a contingent of coastguardmen from the captain of the port barracks made it possible to save the adjoining grain elevator.

Stanley Brandeis, who owns the business and contents, leasing the buildings from his mother, Mrs. I. Brandeis, said he was unable to give an estimate of the loss but that insurance adjusters were due Friday. Insurance carried on the buildings, however, was far from enough to rebuild it, he said.

### Got a Big Start

Two persons, not identified at the fire engine house, called to report the blaze, but by that time, the flames were bursting out the sides and efforts could only be centered on the elevator.

Two streams were laid from the DeBroux corner where Pumper No. 2 was stationed, while coastguardmen in command of Lt. P. H. Forhner set up their trailer pumper at the water's edge to the south. In the meantime, Pumper No. 1 was put into action, sending its own booster hose up into the peak of the elevator to be ready in case the blaze broke through the iron sheeting on the outside.

With its full 500-gallon-per-minute capacity all forced into one stream, the coastguardmen were able to throw a stream clear up onto the elevator roof, extinguishing small flames that broke out time after time. One fire department stream was played on the flanking warehouse, while another was used on the south.

Later in the night, the big pump-

was used on the north. Later in the night, the big pump-er was substituted at the hydrant and the three-in-one deluge nozzle was set up to spray the whole south side of the elevator and further diminish the intense heat. Even then, fire continued to flare up between the iron sheeting and wood siding, requiring the firemen to remain constantly on the alert until 10 am. Thursday. Small portable pumps from the Canal coast guard station were called about midnight to help keep down the flames on the dock.

### Wind Off Shore

A light, off-shore wind protected surrounding property. Burning embers floated clear across the bay and up into the Third ward, but no more fires were started.

The cause of the fire is unknown. The office is heated by an automatic oil boiler, which is not considered a hazard. The blaze seemed to break out in the south side of the warehouse and spread rapidly through a considerable quantity of bundled waste paper, and a large stock of feeds, seeds, flour and other produce in which Mr. Brandeis deals.

All of the contents were lost, including grinder and feed mixer, but coastguardmen and volunteers, working on that side, managed to get out safe. Because of its overheated condition, the safe door had not yet been opened at noon Thursday to determine if the records survived. Contents of a strong box also left in the office were found to be scorched beyond recognition.

### Milk Cartons Lost

Also lost were about two carloads of cartons owned by the Van Camp Milk Co. and stored in the outer corner of the warehouse.

Had the elevator not been saved, a considerable quantity of grain and corn would also have been lost. One bin was practically full, three-fourths of a carload having just been received the day of the fire.

Still surveying his loss, Mr. Brandeis was unable to state Thursday what his plans would be to rebuild. It seemed unlikely that a new warehouse would be erected over the charred footings of the dock; a more likely site would be on shore adjoining the elevator on the west. No decision will be made until Mr. Brandeis surveys the building prospects and makes a settlement with the insurance company.

# Door Co. Co-Op In Expansion

## Buying Property and Stock Of Brandeis Business

Lynn Pingry, manager of the Door County cooperative, has announced that the co-op is completing a transaction under which it will buy the West side feed and grain business of Stanley Brandeis.

The deal will include all property and stock, with water frontage. Buildings include a large warehouse and grain elevator and two other smaller storage buildings.

"We've been looking for a home of our own for more than a year," Mr. Pingry said. The co-op is presently renting a warehouse near the Brandeis establishment from Vernon Bushman of Green Bay. Business and storage will be done there until the new location is ready, according to Mr. Pingry, who said it would take some time to make the changeover.

### Will Build Addition

The co-op has feed mills at Sister Bay and Forestville, with Sturgeon Bay as the hub. The latter supplies the two branches from its warehouses.

Mr. Pingry said the personnel now with Mr. Brandeis would be retained, and that a 45 x 85 ft. addition would be built on the Brandeis warehouse. Machinery now in the Bushman building will be moved to the new location.

The deal will end a long business history written by the Brandeis and Teweles families in Sturgeon Bay. Further details of this will be published in a later issue of the Advocate.

# Letter Doubtful, So CI Will Look Before It Sp

A 50-year old German widower who promises to become a good citizen has asked the Chamber of Commerce for help in emigrating to this country.

1953 March 03

He is Bruno Fritz of Memmingen, who served as an economic advisor to the American Military Government and according to an AMG official "was an unusually efficient public servant."

It is perhaps significant, however, that the official, a Maj. Richard J. Wagner, did not sign his name and that his recommendation is not on official military stationery. George Resch, chamber executive secretary, said he would check with the U. S. Immigration office in Green Bay before taking any kind of action.

### Not a Greenhorn

Referring to the affidavit from this country that he will need before he can emigrate, Bruno says, "I realize such demand may be quite difficult to meet with."

"However," he continues, "I can say that I am not a greenhorn in your country, for I have lived from 1929 to 1937 in Canada, visiting several times the states."

"I have nobody in the states who could for the moment make a sponsor for me and my child 12 years of age. I assure you that I never would request any support but I am trying to find a kind-hearted party or organization who could help me to get an immigration permit, which would clear a rather difficult situation I am facing."

### No Trip, No Ring

"I am widower 50 years of age, 6' 1" tall, good appearance, strong and healthy, a well-educated business man and farmer. My wife

died in 1946 and was at that time barely a year old. I who took care of her and gave a Heidi, who regards her mother.

"Several times I tried to marry but not want to stay can follow her I is willing to take leaving to California daughter who emigrate. Heidi and separate."

"So I ask you my child to help affidavit. The re about. I can pay myself."

## 1953 July 28 In Thresh Machine

We don't know what is going  
on over in Iowa but a family of  
raccoon moved out of that state  
and Wisconsin's coon population  
has been increased by five.

Conservation Warden Allen  
Champney reports that a thresh-  
ing machine was being moved  
from Iowa to Wisconsin and when  
the machine was checked at Men-  
omonie the hitch-hiking animals,  
a mother coon and four young  
were found. They were liberated  
nearby.

## Shell Service Station Open

### New Building Replaces One That Stood 22 Years

Sporting the latest in service  
station design and equipment,  
Adolph "Duffy" Schinken's new-  
ly-remodeled Shell station at the  
corner of Michigan and Second  
av. is once again in operation.

Those who can recall when the  
bridge was built, 1931 that is, will  
remember that the original sta-  
tion opened the same day the rib-  
bon across the bridge was cut.  
"Duffy" explained that early  
county history saw the location  
used as a sand pit and then as a  
dump.

It's hardly that now. There's  
plenty of space for lubrication  
and washing, and the office has  
a glassed-in front on the north  
and west sides. The interior of  
the structure is done in soft  
greens. On hand to serve custom-  
ers are the owner and Hugo Mo-  
Laughlin.

The new station is 28 x 42 ft

## Begin Work on New Feed Mill

### Co-Op Investing \$100,000 In Building, Remodeling

Construction work has started  
on a 60 x 90-ft addition to the  
Boof County Co-Op buildings on  
the West side. The addition will  
be used for a feed mill, according  
to Manager Lynn Pingry.

Concrete block is being used  
throughout. The addition is being  
built on the southeast side of the  
building, near the water. To dig  
a grinding pit a coffer dam has  
been constructed to keep out  
what would be 10 feet of water.

Pingry said the mill's capacity  
will be much greater than the old  
one. Height of the new mill will  
be dictated by engineers, who  
must determine the amount of  
weight supporting pilings can  
stand. Mill equipment has been  
remodeled and a molasses mixer  
has been added. Molasses is mix-  
ed into feed as a stimulant for  
cattle and for use in acid anemia.  
It is hoped to finish construc-  
tion by Nov. 1. Work is being  
done by Lester Nebel, Vernor  
Olson and Vincent Slavik. In ad-  
dition to the new mill, the Co-  
Op's office will be modernized.  
The entire job will cost \$100,000,  
Pingry said.

The Co-Op moved into the for-  
mer Stanley Brandeis warehouse  
and mill the latter part of March

## Park Plans

(Continued from Page 1)

edly is one of our most scenic spots in the city and is possibly the least used. A report on this will be made by the city engineer, together with is possible cost to the park and building committee in the near future.

"It was also contemplated in the park project that small improvements be made to beautify the approach to the west end of the bridge; as this has always been a constant "eye-sore," we are going to take this spring to try and improve it. In this connection, the chairman of the park and building committee has received a commitment from the Wisconsin Public Service Corp. that they will install, some time in early April, an ornamental wire fence and plant shrubbery around the poles just at the west end of the bridge. The present

business establishment located on the property will be moved to about the middle of the property. In other words, about 300 feet south towards the Co-op and as filling is generated as a result of our construction program through the board of public works this year, we will start filling the area. The trees along the sidewalk on the south side have been cut down and the stumps are to be removed.

A low wall of flat rock will be required about 12 feet south of the sidewalk and the area filled with dirt, after which the Sturgeon Bay Garden club has agreed with the chairman of the park and building committee to plant this entire area with flowers and some shrubs this spring.

"As regards Memorial Field: an agreement was made with Mr. Radke, principal of the high school that they would re-seed the outfield of Memorial Field, inasmuch as the football usage of the field has damaged the turf to such an extent that in spots it is dying off. We had anticipated last fall of attempting a

office addressing machine will be used in mailing the blanks. Sevastopol and Brussels high school will be enlisted in covering outlying areas not served by the utility.

Population trends were discussed, and it was discovered that Sturgeon Bay has a higher percentage of children and people over 65 than the state average.

The trend toward urbanization, bigger farms and less rural population was also brought out.

In a group of cities in Wisconsin roughly the size of Sturgeon Bay, this city showed the highest population percentage increase, 29 per cent. West Bend was second. Figures were 1930 to 1950 population.

The importance of the farm and tourist dollar was revealed by the fact that with \$10 million buying power of residents in

## Record Budget Adopted by City Council

The Sturgeon Bay city council Tuesday night adopted a budget calling for a tax rate of \$48 per thousand dollars of assessed valuation. The new tax rate is \$1.50 less than the present rate but will result in more taxes being collected.

The assessment levels were raised approximately 20 per cent during the past year, making it possible for citizens to pay higher taxes under a reduced tax rate.

The budget, plus state and county levies, will bring the total amount of taxes to be levied in Sturgeon Bay to \$708,384, an increase of approximately \$95,000 over the last levy.

Adoption of the budget came after a delegation from the Sturgeon Bay board of education appeared to protest the action taken by the city council in slashing the proposed school tax levy by \$23,500. The board asked that the money be restored to the school levy request.

The appeal was to no avail, however, so it appears that the board of education will have to either operate on the money to be made available or go to the council for a deficit appropriation when the tax money for school purposes has been spent.

The tax levy for the 1958 budget is the highest in the history of the city.

The city's newly built small boat dock will be ready for use Wednesday morning, July 3.

The dock is located at the east end of Maple st., back of West side fire station and south of the Door County Co-op's buildings.

The project was started in May of this year by the city at the request of small boat owners who were seeking space to leave their boats in the water for the season. The city hired the Roen Salvage Co. to remove the hulks of the old H. J. Davis and another unknown schooner that had sunk in the area. The Roen Co. also drove the piling for the dock. The city's crews did the actual construction work of the dock under the direction of Roy Guth, street foreman.

The main part of the dock is 130' long and 5' wide, with finger piers north and south of the main walkway, 20' apart and 3' wide and 20' long with a mooring pier at the entrance to each slip. The dock will accommodate 20 small craft.

The area is floodlighted at night and entrance is through a locked gate near the shore end of the dock. Approximately 18 persons have signed up since last May, requesting space. They are urged to contact City Clerk E. S. Ackerman, who will, upon payment of the dock fee, give each person leasing a space a key for the gate as entrance can only be gained by having a key.

The fee for the balance of this season which will run to nearly freeze-up time in the bay, has been established at \$15. Other persons desiring space at the dock should also register or lease said space from Mr. Ackerman at the city hall.

The parking lot immediately in front of the dock will be leveled in the very near future so that the entire area will present a neat appearance.

## Hungry Angler Poaches Fish

Authorities are looking for a guy with a long reach and a big appetite for fish. Fish have been disappearing from the display pond at the north end of Little lake in Sturgeon Bay.

The tiny pond is surrounded by a 7-ft. wire fence. The fence was put there after fish disappeared from the pond almost as soon as they were put there.

Bernard Lienau, chairman of the city's park and building committee said, "The park and building committee and the conservation department would like to point out to the people of the community that while the fishing season is open in the waters of Sturgeon bay and throughout Door county, the season is closed at the fish display pond on N. Third av., adjacent to Little lake.

"Last year it was necessary for the conservation department to bring up three separate truck loads of display fish to keep the pond stocked. Local conservation

## Workers Idle

From 1957 until about 1963, the City constructed and maintained a small boat dock, a spine with fingers, in the water south of the Door County Co-op Dock. It can be seen on the 1963 U.S. Army Corps of Engineers Lake Survey map. A photo of it is on the next page.

# Road Tells erry Plans

1958 July 31

ers and details estimate the cost of the new facilities at Sturgeon Bay at \$237,026.

V. M. Bushman, president of the Ahnapee and Western, said that construction of the facilities will begin as soon as the favorable action on the application now pending before the ICC is received. Bushman said the lengthy filing of this week is to comply with the requirements of the ICC on the new application. The railroad president said the filing is intended and designed to give the ICC as total a picture of the subject as possible. He said the filing of this week follows the original legal filings of the past month.

The railroad president said the car ferry service would give the people of the area served a new service in the handling of freight across the lake, and would assist in alleviating of traffic through congested areas at the foot of the lake, such as Chicago and its crowded environs.

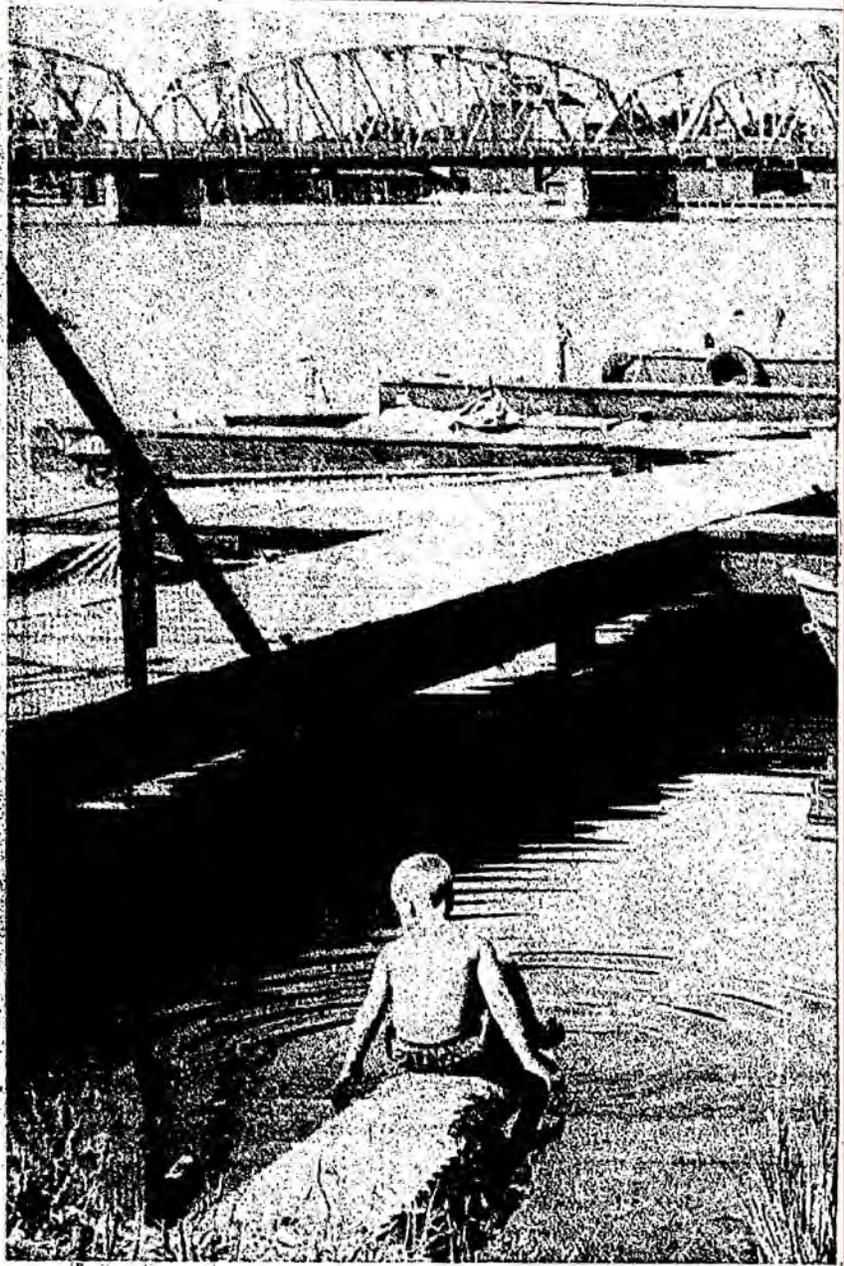

# Trucks Collide, Traffic Snarled By Accident

A traffic accident on the Sturgeon Bay bridge at 7:15 p.m. Tuesday resulted in heavy damage to two large trucks and ty-og-up of traffic for about half an hour.

Involved in the crash were a beer truck driven by Roger Olszewski, Kewaunee, and a dump truck driven by Edward C. Olson, R. 1. Olson told police that he was driving east when the beer truck swerved over into his lane. Olson said that he pulled his truck over as close to the guard rail as he could.

The mishap tangled the trucks so badly that two wreckers had to be called, one from each side of the bay. They managed to pull the two trucks apart, but only after traffic had been tied up for about half an hour.

Both vehicles were damaged heavily, with the beer truck com-

## Plans Sought For New Dock

The next step toward the construction of the new municipal dock on the west side will be the preparation of detailed plans and specifications. The city council Tuesday night gave tacit approval to the mayor to contact local marine architects to see if they would be interested in preparing the plans.

Matching federal funds for construction of the dock were approved recently in Washington under the accelerated public works program.

City Attorney Herman Leasum, in view of the amount of money to be expended on the project, recommended to the council that title insurance be secured. The matter was laid over until the next council meeting at which time there will be a report on the cost of such insurance.

In other action concerning the proposed dock, the council is presently negotiating with the Door County Cooperative on a possible land swap. The cooperative is interested in securing a piece of city owned land for warehouse expansion and the city would like to get a piece of the cooperative's shore frontage for extension of the new dock. It appears likely that a trade will be made.

## Women's Clubs Plan Meeting

The County Federation of  
Women's clubs will hold its  
annual meeting at Gordon  
Lodge, Baileys Harbor, Thurs-  
day, Oct. 10. Registration will  
begin at 9:30 a.m. followed by  
a business meeting at 10  
o'clock at which time club  
presidents will give their an-  
nual reports.

Luncheon at a cost of \$1.75  
will be served at 12:30 and  
club members are asked to  
send their reservations to  
Mrs. John Jorns, Baileys Har-  
bor, before Oct. 7. Should cir-  
cumstances arise where mem-  
bers cannot attend after  
making reservations, cancel-  
lations must be made prior  
to Oct. 7 or they must assume  
payment of the luncheon.

Mrs. Joseph Jungwirth, pro-  
gram chairman, announced  
that Mrs. Madeline Tourtelot  
of Ephraim and Evanston, Ill.,  
will be the guest speaker for  
the afternoon session. Mrs.  
Tourtelot, artist, photog-  
rapher and writer recently re-  
turned from Russia where she  
attended a film festival as a  
representative of a New York  
film review magazine. Mrs.  
Tourtelot will show slides

ger, cooperative president, in-  
dicated that the Cooperative  
would be willing to trade pro-  
perty with the city if the city  
would agree to a deed restric-  
tion providing that no buildings  
would be erected on the dock  
in front of the Cooperative  
property.

The Cooperative has been  
interested in securing a piece  
of city owned property for  
warehouse expansion, while the  
city wants to get a piece of the  
Cooperative's shore frontage  
for extension of the proposed  
new city dock. Each piece of  
property involves about 75 ft.  
of frontage.

It appears likely that the  
council will approve of the pro-  
perty swap, the feeling being  
that the width of the piece  
of land to be acquired by the  
city would not be sufficient for  
construction of a building even  
if there were no restrictions.

In the event that some day  
the city might want to put  
up a building on that par-  
ticular piece of property, there  
is still the possibility that it  
could be done, Krueger wrote,  
"If in the future the city finds  
it advisable to put on some  
type of structure, I'm sure the  
people in charge of the pro-  
perty belonging to the Cooper-  
ative would be willing to con-  
sider the proposal."

protection, a child should be given three injections at intervals of one month. Subsequent "booster" doses are recommended every two to three years until the child has reached the age of 12.

## Eye Rezoning On 14th Av.

The city council is asking the plan commission to study the possibility of rezoning portions of Fourteenth av. and Michigan st. from residential

1963 October 03

The action by the council was taken Tuesday night in light of a recommendation from the zoning board of appeals that the zoning ordinance be amended to permit construction of a funeral home in a residential zone at the intersection of 14th av. and Michigan st. Robert Davis had asked the board of appeals for a variance to permit construction of a funeral home in the residential area, but the board discovered that it did not have the power to do so.

The council Tuesday night apparently agreed that perhaps the best approach to the matter is to have the area rezoned commercial. Covered would be the area between 13th and 14th avs. from Michigan st. to Georgia st., and the north side of Michigan st. from 14th av. to 15th av.

Mr. and Mrs. Jack Welhaven, who control the property on the west side of 14th av. from Michigan st. to Georgia st., appeared at the council meeting Tuesday night and approved the rezoning proposal.

population were vaccinated when they were children but have never been re-vaccinated.

International travel of today makes it imperative that everyone should be protected against smallpox.

## City Employees Ask 40-Hour Week

A request from city street department employees that they be put on a 40-hour week instead of the present 45 hours has been referred by the city council to the chairman of the finance committee for study.

The band plays for sessions of the convention and leads the main parade. Members receive instruction during the week from Dr. Cedric Anderson.

Rodney is a State Farmer in FFA, has 10 cows including four registered Holsteins. He was top scholar in his class in the chapter, played in the state FFA band for five years. He won a "prime" rating on his steer in the Northeastern show.

Senior Pavlik's main interest is farm mechanics. He hopes to go on to school to study mechanical or agricultural engineering. He is scheduled for State Farmer rank next summer.

## City Dock Matters Occupy the Council

Matters concerning the construction of the new city dock on the west side occupied much of the time of the city council Tuesday night.

City Atty. Herman Leasum was authorized by the council to go ahead with the necessary legal steps preparatory to a swap of property between city and the Door county Cooperative. The city will convey to the Cooperative a small piece of property for warehouse expansion in exchange for a small piece of shore property to be used for extension of the new dock.

The Cooperative's board of directors and the city council are agreed on the terms of the property exchange. The city will agree to construct no buildings on the property without the consent of the Cooperative. On the other hand, the Cooperative will offer the city the first chance to buy

the remainder of the Cooperative property should it ever be put up for sale.

The city attorney was also authorized to have the abstract on the dock property brought up to date and to purchase title insurance in an amount up to \$25,000. The insurance premium, which is paid only once, is \$155 for \$25,000.

Mayor Frank Tachovsky was authorized to continue negotiations with Walter Haertel, local naval architect, for the drawing of final plans for the dock. Haertel has offered to draw the plans for three per cent of the total cost of the project and to provide supervision of the project for an additional two per cent.

It has been estimated that the total cost of the dock will be about \$220,000. A grant of \$105,000 will be provided by the federal government under the accelerated public works program.

The Municipal Dock, or the City Dock, or Big City Dock, of 1963-1964 describes the dock to be created by filling behind the bulkhead per the 1955 bulkhead approval from WPS, a bulkhead not at all close to the original shoreline.

1964 September 15

THE NEW CITY DOCK is scheduled for completion this fall. Work is being done by Roen Salvage Co. The project is being accomplished with the assistance of \$105,000 in federal aid under the area redevelopment program. —Harmann

### 34 drivers in Door county Traffic court

It was another busy day in traffic court Monday when 34 drivers forfeited bail bonds for various traffic offenses.

John R. Hoffman, Chicago, forfeited \$50 after being arrested by county police for driving too fast for conditions.

Lyle W. Schley, R. 1, Forestville, forfeited \$13 and Francis C. Sille, Sister Bay, \$18 after being arrested by county police for driving over the center line.

Peter C. Dittz, Minneka, Ill., forfeited \$28 for inattentive driving. Richard Cornau, Kirkwood, Mo., forfeited \$15 for parking in a no-parking area. Both were arrested by county police.

Night speeders arrested by county police were John L. Herz, Highland Park, Ill., \$20; David A. Grummett, Chicago, \$18; Thomas F. Jost, Cleveland, Wis., \$30; Kenneth J. Meuret, Cudahy, \$20, and Earl Addison, La Grange, Ill., \$20.

Zoned speeders arrested by county police, all of whom forfeited \$20, were Richard A. Halussn, Milwaukee; Jerome Pierquit, Algoma; Jane Zalot, Evanston, and Joan Engelhuber, Milwaukee.

Park speeders arrested by county police, all of whom forfeited \$15, were Robert K. Headin, Maywood, Ill.; Dorothy L. Hayes, Joliet, Ill.; Gregory J. Huwiler, Milwaukee; Howard G. Kreuter, Dallas,

DeFoe speak, permission granted. Toni DeFoe spoke on the plans for the fund raising project.

9:57 P.M. Alderman Nelson left the room at this time.

Moved by Alderman Wright and seconded by Alderman Ross that said recommendation be adopted and referred to the Finance Committee for the appropriation of funds. Upon roll call vote, all present voted "Aye." Carried.

10:00 P.M. Alderman Nelson re-entered the room at this time.

**TO THE HONORABLE MAYOR AND COMMON COUNCIL**  
Gentlemen:

We, your Purchasing and Building Committee, hereby recommend that the City of Sturgeon Bay sell the real estate and building known as the West Side Fire Station #2 to the adjoining property owner, Door County Cooperative, for the sum of \$5,000.00; that the appropriate City officials be authorized to execute the necessary documents to complete this transaction.

Respectfully submitted,  
**PURCHASING & BUILDING COMMITTEE**  
By: /s/ Fred G. Wickman, Chmn.

RESOLVED, That the foregoing recommendation be adopted.

Introduced by Alderman Wickman.

Moved by Alderman Wickman and seconded by Alderman Moore that said recommendation be adopted. Discussion followed.

Moved by Alderman Wright and seconded by Alderman Moore that this recommendation be tabled until such time as a piece of property on the Northwest side of Door County Co-op. is considered in trade. Carried.

**RESOLUTION**

WHEREAS, the United States of America, through the Environmental Protection Agency, has granted to the City of Sturgeon Bay a certain sum of monies which were used by the City for enlarging and improving upon its waste water treatment plant, and

WHEREAS, the grant was conditional upon the City of Sturgeon Bay meeting certain requirements,

NOW, THEREFORE, THIS RESOLUTION:

BE IT RESOLVED, by the Common Council of the City of Sturgeon Bay, that it require, and it hereby does, all industrial waste discharge to the collection system of the City of Sturgeon Bay for treatment at the Sturgeon Bay Waste Water Treatment Plant, to be pre-treated by the industry to an acceptable

liquor license be granted to Donald L. Schaefer—Railroad Inn. Carried.

**PARK AND RECREATION COMMITTEE  
By: /s/ Daniel J. Nielson, Chmn.**

RESOLVED, That the foregoing recommen-  
dation be adopted.

Introduced by Alderman Nielson, seconded  
by Alderman Conlon that said recommenda-  
tion be adopted.

Upon roll call vote, all members voted  
"Aye." Motion carried.

Moved by Alderman Nielson, seconded by  
Alderman Moore, the Park and Recreation  
Committee be authorized to purchase an Allis  
Chalmers 170 Tractor with two buckets and  
three prong hitch and also a cultivator which  
works off the three prong hitch, for the total  
sum of \$6,500. Upon roll call vote, all  
members voted "Aye." Motion carried.

**RECOMMENDATIONS OF THE  
CITY PLAN COMMISSION:  
TO THE HONORABLE MAYOR  
AND COMMON COUNCIL**

Gentlemen:

We, your City Plan Commission, hereby  
recommend that the request of Don  
Fredrickson for permission to place two en-  
trance pillars on City property at the corner of  
Memorial Drive and S. 16th Court be denied,  
as there is sufficient area on his property for  
installation of these pillars.

Respectfully submitted,  
CITY PLAN COMMISSION

By: /s/ Orville S. Austad, Chmn.

RESOLVED That the foregoing recommen-  
dation be adopted.

Introduced by Alderman Bangle.

by Alderman Nielson that said recommenda-  
tion be adopted. Upon roll call vote, all  
members voted "Aye." Motion carried.

Ordinance # \_\_\_\_\_, creating Section 15.01  
(6.5) of the Municipal Code of the City of  
Sturgeon Bay was read by the acting clerk for  
the first reading.

Ordinance # \_\_\_\_\_, amending Section  
20.04 of the Municipal Code of the City of  
Sturgeon Bay was read by the Acting Clerk for  
the first reading. (Zoning changes—VARIOUS  
LOCATIONS).

Ordinance # \_\_\_\_\_, amending Section  
20.04 of the Municipal Code of the City of  
Sturgeon Bay was read by the Acting Clerk for  
the first reading. (Zoning change-portion of  
Cherry Hill Subdivision).

The following legal opinion was presented  
from the City Attorney:

Gentlemen:

It is my opinion that you will not desecrate  
the designation of the Sunrise Housing Project  
as "Memorial Athletic Field," by naming a  
portion thereof as the "Horace T. Freiman  
Field."

Since both designations end in the word  
"field," perhaps it would be less confusing to  
have the track field area designated as the
